Our mission is to Provide best CNC Tools

M/S SS. ENGG. WORKS is located at NIT Faridabad in the industrial heart of Haryana. The Company was established in 2011 by Mr. PRASHANT KUMAR with the aim to enter into the supply of precision turned Component.

Today M/s S.S ENGG. WORKS an ISO 9001:2015 certified company is well known name in the field and enhancing image by continual improvement in the product and processes.

Our Aims to consistently deliver world-class quality in every aspect & ensure that its product remain the natural choice of discerning customers across the Globe. There fore we have built quality in to all the process through out the Organization.

About Us

We have a manufacturing facility in Faridabad which is a prominent and fastest growing region of Haryana (India). We are equipped with latest technology machines and quality control system to produce precise tools of highest standards. S. S. Engineering Works was established on may 2011.

Introduce ourselves as manufacturers of quality VMC, CNC Power Chuck, Precision Turned Machining and Headed Components. The infrastructure facility is incorporated with several units like design, production planning, quality control, packaging, warehousing, sales and marketing. Our infrastructure also supports us to take bulk demands from our clients and offer customized solutions based on the clients specifications.
